Taunton — 1864

Court House on original site.

Brownell's Tin Shop.

This year 1964, is the one hundredth anniversary of Taunton as a city and the three hundred and twenty-fifth as a town. In keeping with the Centennial we have chosen as our theme — Taunton 1864-1964. The scenes of Taunton in 1864 are in sharp contrast with Taunton today. The old tin shop might cause one to gape with wonder now just as, we are sure, the modern Main Street would have awed the Tauntonian of one hundred years ago. Yet the essence of the city has not changed. The externals may be altered, but the heart of the city, its people, remains constant.

foreword . . .

In this year 1964 we celebrate the hundredth anniversary of Taunton's becoming a city and the three hundred and twenty-fifth anniversary of its founding by Elizabeth Pole.

In honoring our past, we venerate our heritage. For more than three centuries, the men and women of Taunton have helped to build a better world for each succeeding generation. They have safeguarded their homes, educated their young, promoted industry, encouraged the arts, preserved freedom, and served God and country.

As graduates in this year 1964 we turn to the past with grateful hearts and face the future with confidence.

dedication

We dedicate our Journal to Edward F. Kennedy, who, during his six years as headmaster of Taunton High School, exemplified the finest qualities of leadership. Recognizing the needs of students in the Space Age, he inaugurated curriculum changes in the sciences, English, languages, and mathematics. A former history teacher, Mr. Kennedy had an appreciation of the past in assessing the present and in planning for the future. As a former guidance director, he never lost sight of the importance and the dignity of the individual. The first graduate of Taunton High School to become its headmaster, Mr. Kennedy filled the position with dignity, knowledge, experience, perception.

We wish him long years of happiness in his retirement.

headmaster

Have you ever seen a headmaster in a Beatle wig? We have. Mr. Mullen delighted the whole school this winter by bringing his to a basketball rally.

Although Mr. Mullen has been headmaster for only one year, he was assistant headmaster for ten years, chemistry teacher, head of the science department, and athletic coach here! His face is one of the best-known and best-liked at THS, and we will always remember this capable, just, and patient headmaster.

faculty

In 1864 the Taunton High School faculty offered a wide variety of courses with an emphasis on classical education in preparation for college. Today, we have more advanced courses, especially in the sciences, and also a choice of practical courses such as typing, shorthand, foods, and clothing, which were not offered in 1864.

Assistant Headmaster: Mr. Edward J. Lynch.

Dean of Girls: Miss Mary P. McMahon.

"Advertency please, advertency please."

assistant headmaster

As newly appointed assistant headmaster, Mr. Lynch has charge of the Traffic Squad and disciplinary problems.

In Mr. Mullen's absence, he became acting headmaster and maintained a high spirit of enthusiastic school spirit and pride.

dean of girls

As Dean of Girls Miss McMahon has charge of the discipline and conduct of the girls.

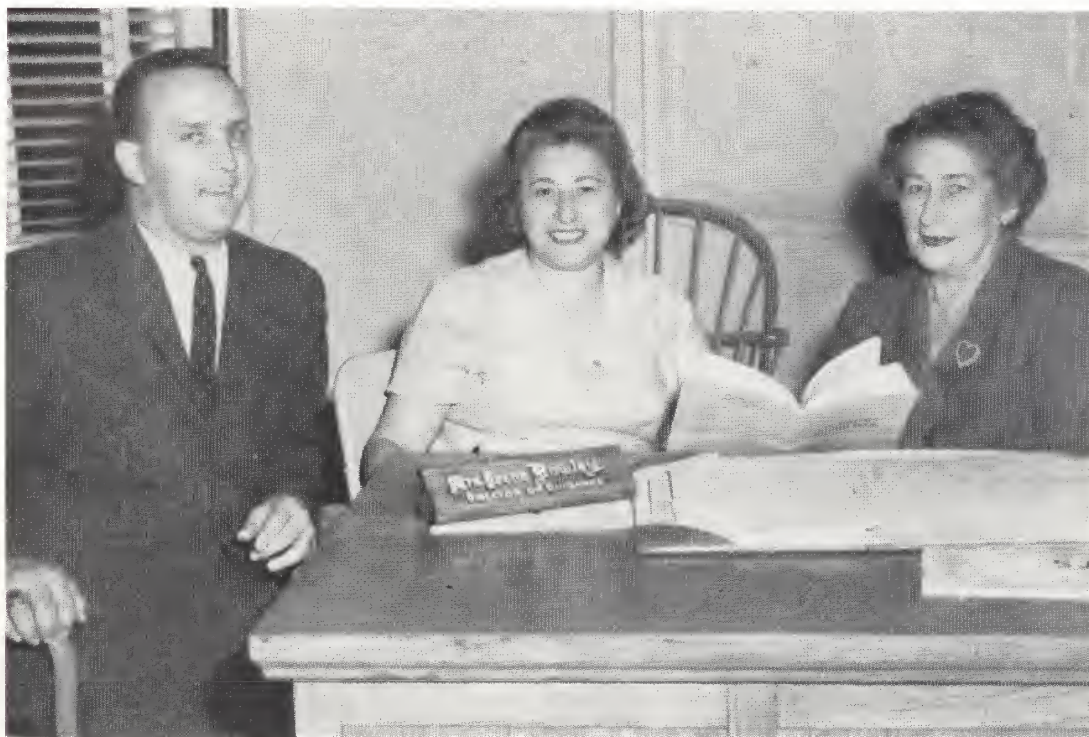

As sponsor of the Girls' League and Student Council, Miss McMahon devotes much time and effort to making our activities worthwhile and purposeful.

Perhaps the department most concerned with the immediate futures of the students is the Guidance Department. Elective blanks, College Boards, summer jobs, college acceptances, and future careers are only a few problems handled for us by the guidance office. From the beginning of the freshman year, every student is given individual guidance. The seniors especially appreciate the work of the guidance director and counselors for their invaluable aid in applying for college acceptances and finding jobs.

Hamlet, Silas Marner, The Scarlet Letter, iambic pentameter, Romanticism . . . Every student who graduates from Taunton High School has learned something of the great literature and thought of the English language. Four years of English is required here, and though students groan at themes and book reports, none of them can deny the value of English composition.

department

Most students have more individual contact with their English teachers than with teachers of other subjects, and the members of our English department always manage to find time to help students individually.

Besides gaining literary knowledge in English classes, underclassmen spend a required period every week in the library. There, students also learn how to use reference books and the Dewey decimal system.

mathematics department

"I'll see you at my make-up tonight," says Miss Dykas.

Students who take math at Taunton High declare that they certainly were given a chance to think for themselves. In fact the favorite motto of Miss Knox, head of the department, is:

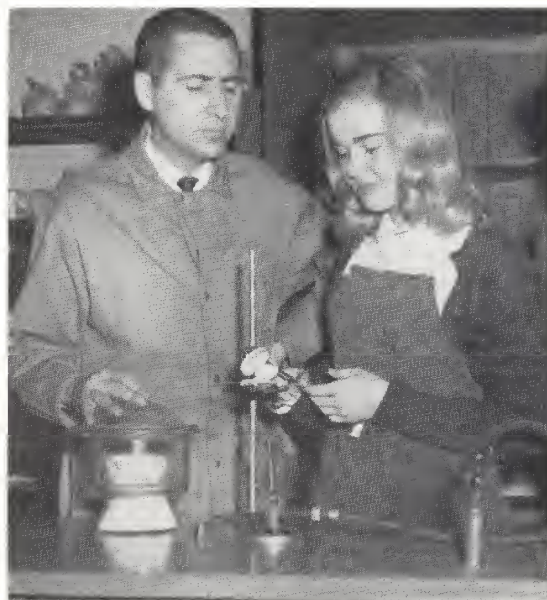

*"We learn to do neither by thinking
nor by doing, but by thinking about
what we are doing."*

All vocations ranging from medicine to gardening are concerned with mathematics. With this in mind, the Mathematics Department offers a variety of courses, in which the student is given an opportunity to gain the mathematical background necessary for his future profession. This department acts on the belief that mathematics is the key to many opportunities.

Annually, the Mathematics Department sponsors a Math Contest which all Juniors and Seniors are eligible to take and a Geometry Contest in which Sophomores participate. The Math Club is also under the direction of the Math Department.

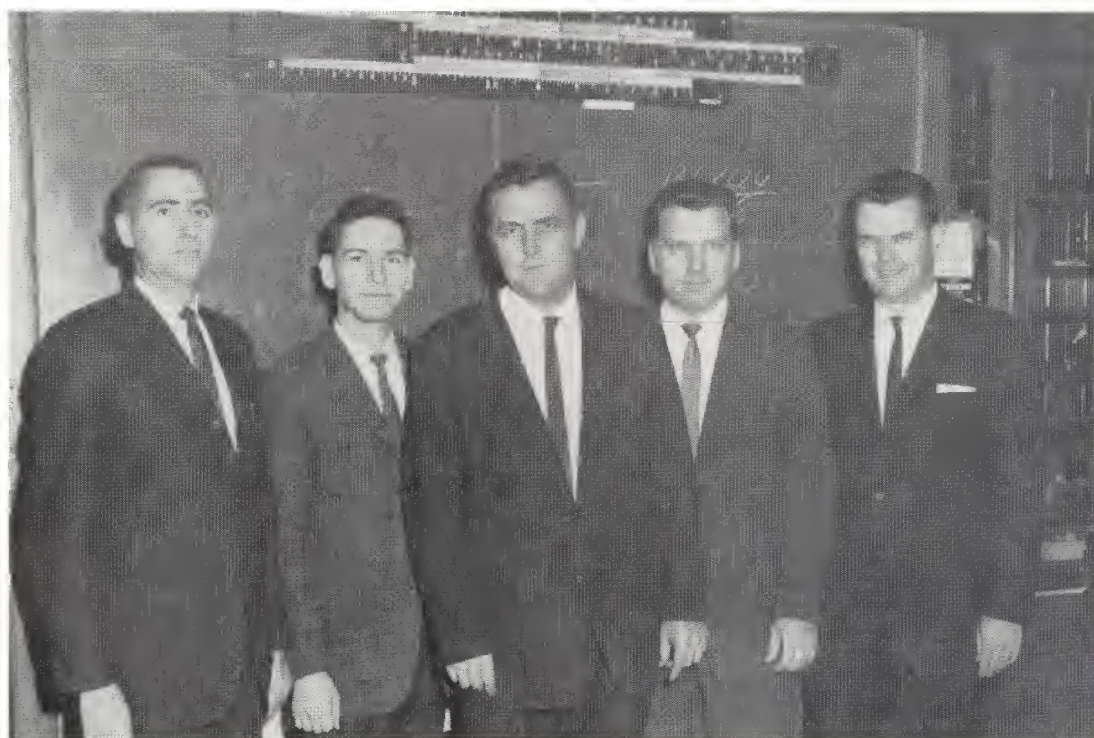

The world of science encompasses everything we can perceive. Therefore, it is important that all high school students be acquainted with this subject, even though they have no intention of entering a field of science. If a student decides to enter scientific study, the information gained from his science courses will prove invaluable.

Whether a student studies general science, biology, chemistry, physics, or senior science, a new and interesting world is bound to open up for him. Because the science teachers realize the importance of science in our technological world, they are striving to improve their departments. Two new courses have been added this year: a PSSC course in physics and a Green Version course in biology. Mr. DePaola is studying the "New Chemical Bond Approach", and next year a course in this will be offered. The Science Department hopes to have new equipment which will stimulate more interest in science.

Remember, Susan Jenkins, it's a dime for every broken test tube.

social studies department

The Social Studies Department helps to develop good citizens through its courses in civics, American history, world history, and problems of democracy. Today, knowledge of the history and functions of our government is a necessity in the education of every person.

In addition to standard courses, the department annually sponsors many activities in which history students may participate. Among these activities are the Taunton-Somerset Student Exchange Program, the Old Colony Historical Hall Program, and the Memorial Day Assembly. The highlight of the department's enterprises is "Good Government Day." This program, originated by former councilman William A. Potter in 1937, gives students an opportunity to witness the functions of city government and to select representatives to run their municipal government. Each year in the spring the students conduct their own council meeting and learn about their city government through first hand experience.

foreign language department

This year Mr. Richard Kaegael, newly appointed language department head, launched a new course of study in French and Spanish for freshmen students. Formerly, Latin was the only language available to them, while French and Spanish were begun in the sophomore year. Mr. Kaegael points out: "With the ever increasing difficulties of college boards and college acceptance plans, we must have for our students, those courses which will best prepare them for the future."

In addition to the change in courses, the language laboratory, used beneficially by all students who study French or Spanish, has been greatly improved. During the summer, the entire lab was renovated. This will aid students who, in the future, will take college boards which test their conversational ability.

Mr. Ruscitti listens to linguists in the language lab.

Mrs. Weygand helps a confused student search for the "a" key.

Do you like the excitement of business? Do you like to be a vital part of large organizations? The Commercial Department at Taunton High School is preparing its students to face the challenges of this interesting world. Many of its students are finding jobs in area business immediately upon graduation. Others are furthering their education by attending two year secretarial courses or four year colleges specializing in business administration, education, or other associated fields. Whatever the student's choice, by keeping abreast of current trends, the Commercial Department is willing and able to help him in his quest to help business.

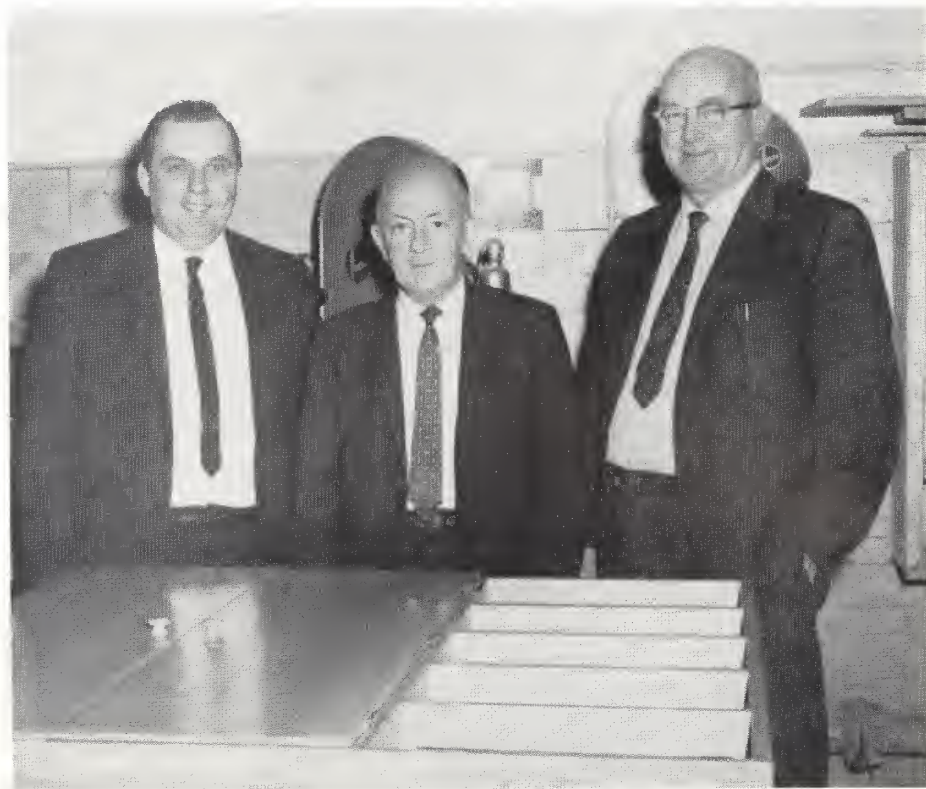

Is that your prom dress, Barbara Brown?

Under the guidance of Mrs. Corcoran and her staff, students in this department are encouraged to develop home-making skills. Appealing aromas from the food laboratories tempt the appetites of students passing through the basement corridors. Each spring the girls work enthusiastically on cotton dresses and suits which they model at a dress contest. Seniors who take a course in family living learn to manage a home, make out menus, budget their income, and, most important of all, establish rapport with other members of their family to insure harmony in the home.

The Manual Training Department teaches boys to use wood-working tools and to make serviceable and attractive pieces of furniture. Besides enjoying themselves and learning for their own personal profit they aid the school by building shelves and bookcases, and by making minor repairs.

In the Mechanical Drawing classes on the third floor, students are taught the fundamentals of isometry and orthographic projection. In addition to these studies, students learn to understand and to construct complicated blueprints. The students enrolled in these classes are preparing to be the engineers and draftsmen of tomorrow.

art and music

"Oh! Aren't they beautiful!" echo the cries of delighted students and teachers as they see the colorful posters made by students in the art department under the direction of Mrs. Clare Crosby. This year the art department has decorated the school for the Christmas season, for the Science Fair, and for National School Lunch week.

Are you interested in music? If you are you can learn to appreciate all types of music by electing Music Appreciation or Theory of Music. Or, if you're clever enough to play an instrument or have a melodic voice you can find great fun and accomplishment by joining either the Band or Glee Club.

Look! Look! A walking catalpa tree!

physical education

Miss Ann Farley, Girls' Physical Education; Mr. Augustine DiRubio, Boys' Physical Education.

Anyone who happens to walk by the gym in the middle of a period is sure to hear the excited cries of boys and girls participating in the physical education program. Physical education is required for all freshmen and an elected subject for many physical fitness enthusiasts in the upper classes.

Mr. DiRubio and Miss Farley are helping to fulfill the physical fitness program urged by our late president. Their success is evident in the attitude of the students. "These boys are so interested in what they are doing that they don't care what else happens," Mr. DiRubio told us.

And only last week I was a ninety-seven-pound weakling.

office staff — health

Standing: Mrs. Alyce Rae Lutz. Seated: Miss Mary E. McCarthy.

School Nurse: Miss Claire Leddy.

Mrs. Lutz and Miss McCarthy are two busy members of the Taunton High School staff. Both are responsible for keeping accurate records of undergraduates and graduates and keeping the main office as free of confusion as possible.

Also, Mrs. Lutz types permanent record cards and report cards, checks on registers, handles correspondence, and takes dictation. Miss McCarthy writes the daily notice sheet and absence list, prepares transcripts, answers the telephone, and sends messages.

we honor

Mr. Kennedy receives a scroll from the Student Council

A graduate of Taunton High and Pembroke College, Miss Grace A. Hopkins has been a member of the faculty since 1924. As a teacher of biology, she has aroused the interest of her pupils and in many has promoted a genuine love of science. Her teaching has not been confined to biology, however. As sponsor of the High School Red Cross she has helped her pupils to become thoughtful citizens dedicated to serving their neighbor—a patient in the State Hospital, a service man in the Veterans' Hospital, a child half-way around the world.

Students and faculty members hope that she will never lose her zest for service and living! As she retires we wish her Godspeed.

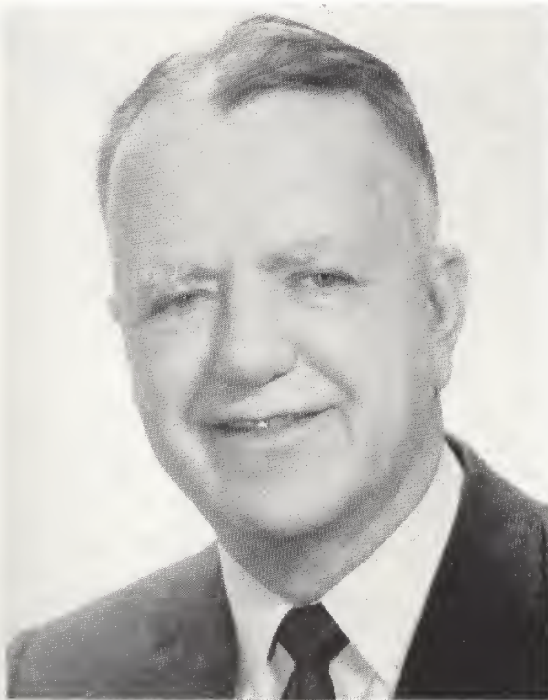

MISS GRACE A. HOPKINS

For forty years Rolfe H. Burns served well and faithfully the students of Taunton High School. As head of the Mechanical Drawing Department, he guided many boys into successful careers as draftsmen and engineers. A man of many and varied interests, Mr. Burns is an avid reader, an enthusiastic gardener, connoisseur of antiques, devotee of the theater, and master builder. The students and teachers join in wishing him many years of health and happiness in his retirement.

MR. ROLFE H. BURNS

in memoriam

MR. WALTER E. SKWARLO

The school and community were saddened in August by the sudden and untimely death of Walter E. Skwarlo. A graduate of Boston College and Middlesex Medical School, he joined the faculty in 1956 as a teacher of Driver Training. Under his tutelage hundreds of high school boys and girls learned not only the technique of safe driving but also the rules of courtesy as they apply on the road. Patient and understanding, he was a well-liked, highly respected teacher.

seniors

In 100 years, graduation exercises have changed greatly. Although there were only eight graduates in 1864 compared to the two hundred and ninety of today, the program was much longer. Speeches and dialogues were given in English, French, and Latin.

Much has happened in the four years since we first walked up the steps and entered Taunton High School. Our years have been exciting, fun-filled, and rewarding. As freshmen we studied, learned by our mistakes, and looked forward to becoming upperclassmen. As sophomores we sponsored our first social event, "Cape Cod Holiday," a prelude to other dances and social affairs we have enjoyed since then. In our junior year we began to take a greater part in school affairs. We participated actively in the Student Council, worked on the *Tauntonian*, joined clubs, applauded our classmates who were inducted into the National Honor Society, and worked together to make our prom a magnificent affair.

Senior year activities have been numerous. They included record hops and drills, work on the *Journal*, a victory over Coyle in basketball, the Dramatic Club production of *Our Miss Brooks*, field trips to Boston and other points of historic interest, three theater parties, Student Teacher Day, and last, but not least, our Prom at the Cotillion, and Graduation!

Seniors will remember this year always, because it marked the retirement of our headmaster, Mr. Edward F. Kennedy, and the death of our beloved president, Mr. John Fitzgerald Kennedy.

These were years of shadow and sunshine, of effort and fulfillment, of work and play. They were years of living. They were life.

honors

Mrs. Irene Rowley presented letters of merit to Paula Walker and Eileen Witschey. The National Merit Scholarship Foundation Service awards these letters annually to those students who were in the top two per cent of those taking the test across the country.

Carol Mansfield was chosen by the student body to be T.H.S.'s delegate to the Massachusetts Legislature on Student Government Day. On this memorable occasion Carol served as a member of the Education Committee.

Barbara Jean Elliott was presented with the Betty Crocker Future Homemaker of America Award for attaining the highest score of all the contest participants at Taunton High School.

honors

Once again the Taunton High School Red Cross was honored for services rendered in and out of school. Accepting the Youth Group Achievement Award given annually by Parents' Magazine are Paula Bzdula, president, and Miss Hopkins, sponsor.

Carol Mansfield was honored by her classmates when they voted for her to receive the Daughters of the American Revolution Award presented annually to a senior girl who is outstanding in scholarship, leadership, and patriotism.

Maureen Farley won first prize and Best of Show Award at Taunton High School's annual Science Fair, with her exhibit entitled "R-H Exchange Transfusion."

The Taunton High School Chapter of the National Honor Society is one of over 6000 similar organizations in high schools throughout the nation. To attain membership in the society, a candidate must be outstanding in scholarship, leadership, service, and character. A junior must have an average of 90 and a senior an average of 88.

The society has four main objectives: to create enthusiasm for scholarship, to stimulate a desire to render service, to encourage the development of character, and to promote worthy leadership. Under the sponsorship of Miss Helen Dykas and Miss Anna Fenton, the society has achieved these ends.

Each spring the parents of members are invited to attend the induction ceremony in the morning and in the evening a dinner given by the school board to honor the members for their scholastic achievement.

underclassmen

The qualifications for admission into high school in 1864 were very different from those of today. Then, applicants had to pass tests in reading, spelling, grammar, geography, and arithmetic.

junior class

JUNIOR CLASS OFFICERS

Seated, left to right: Marsha Baron, treasurer; Joseph Urban, vice-president; James Cavanagh, president; Maureen Reilly, secretary. Sponsors: Mr. J. Kelleher; Mrs. M. Staples; Mr. J. Sullivan.

Under the capable leadership of their sponsors, Mrs. Marie Staples, Mr. James Kelleher, and Mr. John Sullivan, the juniors got off to a good start by sponsoring a record hop "Moonlight and Mistletoe." Disc jockey Bruce Bradley of Station WBZ brought fifty dollars worth of records for prizes!

In February the juniors began preparations for their prom, "Polynesian Paradise." Co-chairmen of the decorating committee, Nancy Lopes and Joanne Freedman directed their classmates, who transformed our auditorium into a South Sea island complete with volcano, waterfall, and tiki.

The juniors will be remembered for their many accomplishments, not the least of which is mak-

ing a change in the traditional ring design. From now on the class ring will be onyx in a gold setting. The journalism class put out the March issue of the *Tauntonian*, juniors of English EX actively helped the yearbook staff in producing the *Journal*, and many members of the class worked diligently on the Citizens' Scholarship Fund. Also, the juniors were well represented at the Science Fair, and many took part in the Art Poster Contest.

By participating in the Math Contest and by taking their College Boards this year, the juniors have gained valuable experience as well as useful practice for next year's important tasks.

Jean Cushman, the talented vocalist of Taunton High School, had the female lead in the Dramatic Club production "Our Miss Brooks." At her church Jean sings solo and has performed for Rainbow installations, benefit shows, Red Cross Variety Shows, and local groups and clubs. Jean sang on Radio Station WPEP for the Christmas Glee Club program, and performed for the Glee Club's Spring Concert.

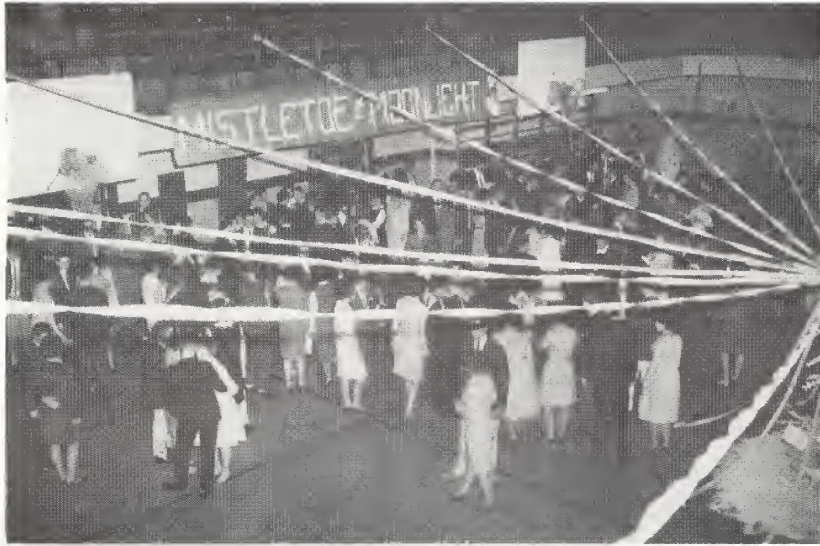

A junior of whom we are proud is David Morris, who was recently awarded a position in the All State Band. Playing first trombone in our own school band, David is also a participant in the Taunton City Band and the Raynham Lion's Club.

There is no doubt about it: David is a very busy boy and a credit to Taunton High!

After two years in Taunton High School, many fortunate sophomores have finally discovered why $c^2 = a^2 + b^2$. . . Now they're ready—.

The sophomore class has had an active year. Their membership in various school organizations and their active participation on the athletic field have made this second year both enjoyable and rewarding for them. They have succeeded in many areas—both in academic endeavors and in athletic activities. Their scholastic talents have won them much recognition, and the team coaches have great hopes for these upper classmen. Like other classes before them, their greatest hope is to win the Thanksgiving Day game over their long-standing rival, Coyle High School.

Most capable and enthusiastic among them are their officers: Arthur Kostka, president; Sharon Lima, vice-president; Donald Crossman, treasurer; and John Nunes, secretary. Serving as representatives on the Student Council are Brian Cornell and Sandra Taylor.

The successful activities of this class, one of which was their dance "Harvest Hop," have been directed by their sponsors: Mrs. Marjorie Shing, Mr. Richard McMorrow, and Mr. Thomas Sherry.

Now that they have reached the half way mark in their high school career they are looking forward to the next two years with happy expectations. With the energy and enthusiasm they have already displayed, they are sure to make these years outstanding.

The first year in high school is always the hardest, but now that the freshmen have become familiar with the little green elevators, they await next year's greenhorns with mischievous anticipation. While membership in many clubs is not open to them, the freshman class has had many active participants in school-sponsored activities. The girls have been avid and loyal fans of our athletic teams, and while the boys are denied Pep Squad membership, they too have lent much lung power to our cheering section.

Chosen to represent them in next year's activities are their new officers: Thomas Reilly, presi-

dent; Debbie Craven, vice-president; Sheila Bliss, secretary; and Kathy Cornell, treasurer. Serving on the Student Council are Scott Chausse and Jo-Ann Austin.

Tops on their list for future plans are their proms, but first things come first. Their immediate aim is to conduct a profitable "sophomore hop." Even more immediate in their hopes is to become what all freshmen long to become . . . sophomores.

Sponsors for this class are Mrs. Bedonna Ashapa, Mrs. Josephine Coyle, and Mr. Richard Januse.

NADINE CUSHMAN

Nadine Cushman is one of Taunton High School's outstanding young musicians. Although only a freshman, she has achieved the recognition of being named to the All State Band.

Her talent and dedication have won her other honors in the field of music. Playing both the oboe and clarinet, she is a former member of the St. Mary's Grammar School Orchestra. Currently she belongs to the Raynham Lions Club Band, the Boston Junior Youth Symphony, the New England Chamber Orchestra, and the Woodwind Quintet.

Nadine devotes each Saturday to music at the New England Conservatory in Boston. Very versatile, she has many other outside interests. Her ability in science was proven by her award of honorable mention of this year's Science Fair.

activities

In 1864 there were no extra-curricular activities. In 1886 the Cadet Corps was organized, and in 1897 the beginnings of a music program appeared with the formation of a quartet of singers from that year's senior class. Today we have activities to satisfy almost any interest.

tauntonian

Notes from the Sports Desk.

Purpose of *The Tauntonian*, Taunton High School's newspaper, is to present THS news, to entertain students and faculty, and, whenever possible, to suggest ideas for improvement of the school and the community.

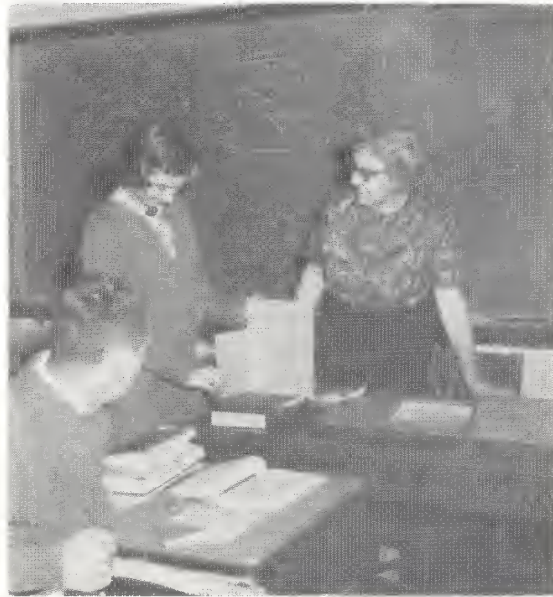

One method of preparing for a staff position on the paper is to join the Journalism II class, which meets three days a week under the direction of staff adviser Agnes T. Laughlin. Pupils study methods of writing news, features, and editorials, and techniques of newspaper lay-out. The class also has the opportunity of putting out one issue of the paper during the year.

Publication work begins early in September and continues until the last of six issues appears in June.

math club

Instead of attempting to find the answer numerically, why not use logarithms as the Math Club members would do? This is just one of the countless problems and brain-teasers that Math Club members solve at their bi-monthly meetings.

The Taunton High School Math Club, organized by Richard Packard and Malcolm Gray in 1957, acquaints its member with mathematics as a whole, new mathematical concepts, time-saving mathematical tricks, and the theories behind some of the formulas they use every day. This year, instead of the usual student-faculty basketball game, the Math Club sponsored a car wash to help raise money for the organ fund. In June, the club, under the direction of Miss Alice R. Knox, Math Department head, held its second annual Geometry Contest for plane geometry students. Upperclassmen participated in the annual Math Contest, and first was Peter Wade with William Tripp and Eileen Witschey placing second and third respectively.

student council

Raising a hundred dollar donation for the John F. Kennedy Memorial Library Fund was one of the projects of the Taunton High School Student Council this year. This money was raised by selling candy within the school. Another project was selling tags to raise money for the Citizens Scholarship Fund. It also raises money for school needs by selling book covers and paperbacks.

The Student Council sponsored Student-Teacher Day and Student Dress-up Day on April 10. Members and their parents also attended the annual Parents' Night Supper on April 14.

Throughout the year, delegates were elected and sent to represent Taunton High at district and state conventions.

The Student Council sponsor is Miss McMahon, and the faculty adviser is Mrs. Bliss. Officers include president, Susan Gula; vice-president, Mary Beth Morris; Secretary, William Tripp; and Treasurer, Nancy Henerberry.

girls' league

This year, the Girls' League, a club open to those senior girls who have maintained an 85 average or better during their years in high school, has a membership of fifty-five, the largest number ever to be eligible. Although the girls enjoy many "fun" activities, such as Initiation Day and their annual beach party, they also enjoy the educational opportunities offered them. Mr. Thomas Hyland, a social worker from the Family Service, was guest speaker at one meeting, and at another meeting, Mrs. James Kelleher, a pediatric nurse, told about her training at the Children's Hospital in Boston.

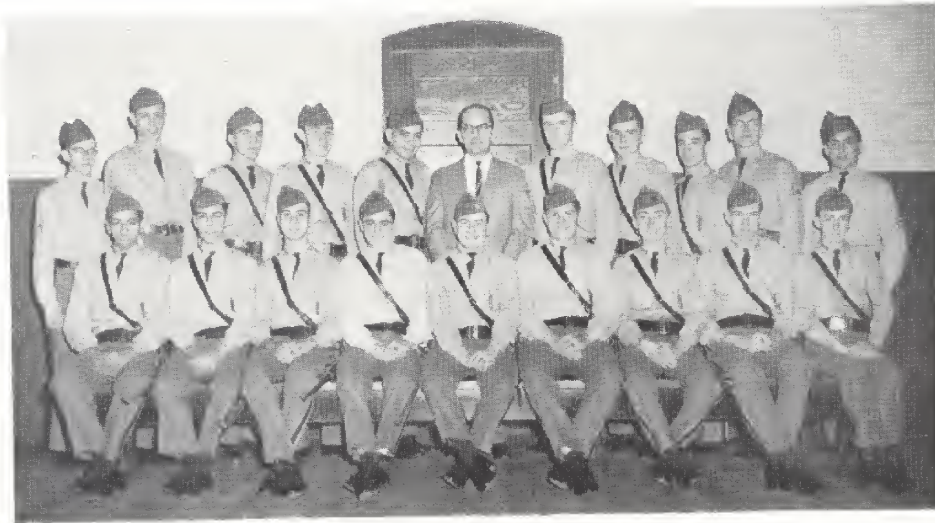

Miss Mary P. McMahon, sponsor, said, "This year's Girls' League is, in my opinion, the nicest group that we've had in a long time. They contribute greatly to the high standards of dress and behavior among the girls of the school and give underclassmen an ideal for which to strive."

The 1963-1964 officers include Gayle Weygand, president; Paul Bzdula, treasurer; Eileen Witschey, vice-president.

On November 30, 1963, the T. H. S. CADET CORPS lost one of its most dedicated instructors, Sgt. Joseph H. Perry, who retired after twenty-two years of service to the Corps. He was presented with a scroll before the battalion.

As usual, the Corps sponsored its semi-annual drills, one in January and the other in June. The corps accepted invitations to participate in three parades this year: the Miss Taunton Parade, the Memorial Day Parade, and the Centennial Parade.

The main purpose of the Corps is to promote the ideals of military discipline and courtesy. Under the guidance and supervision of the new instructor, Colonel James T. Thomas, the fifteen officers and one hundred and fifty cadets had a successful year.

"Our Director"

The T.H.S. band under the excellent direction of Mr. Park has again had a very successful season. Besides adding much to school spirit at all the football games, the band has marched in parades, put on concerts for other high schools, entertained at the Rotary Club, and drawn a full house to its annual spring concert. Everyone at T.H.S. is especially proud of this years band because it has been chosen to play at the Miss America Pageant in Atlantic City in the fall.

Besides the concert band, Mr. Park directs the swing band. This group, organized in 1961, has delighted many audiences at band concerts since then.

This year the "Silvertones", a special vocal group composed of twenty of the top students, displayed their talent by performing for many civic organizations.

Sponsored by Miss Reilly, the club is led by Patricia MacDougall, president, Helen DeSilvia, vice-president, and Nancy Henerberry, secretary-treasurer.

"Quiet on stage," ordered Mr. Kelley, as the members of the Dramatic Club gathered for rehearsals of "Our Miss Brooks." This year, for the first time, the club staged a musical comedy for the public. Led by Jean Cushman and Thomas Spillane, the cast spent many tedious hours in rehearsals while other club members solicited ads to raise money for the production.

The play was a success, and the year's program was entertaining and varied. Already members are planning next year's production. Who knows? The next step may be Broadway!

"What's your choice for the daily double?"

The traffic squad is a group of boys appointed by the headmaster to keep order in the building. Each boy has an assignment and goes to his post between periods.

Although traffic guards have a few special privileges, they work hard to improve the school and to help fifteen hundred students move through the building in an orderly manner. This year Mr. Lynch, sponsor of the squad, made it possible for the members to receive a graduation credit for their work on the squad.

Students respect the authority of the guards and obey their suggestions in the corridors, at fire drills, and on every occasion when they are on duty.

The principal debating subject of the year was Medicare. The club did so well with the subject in its debates that Mr. Kelley hopes it will soon be ready for the Narragansett Debating League.

Shirley Packard and Diane Souza make holiday favors for the Paul Dever School.

For the third consecutive year the High School Red Cross, under the direction of Miss Grace Hopkins, has won the *Parents Magazine* Youth Group achievement award for outstanding community service. The council, composed of representatives from each homeroom, heads of committees and officers, has five meetings a year. But their work doesn't stop there. Every month a group of senior girls sponsor ward parties and attend dances at Brockton Veterans Hospital. This work is especially challenging for girls interested in social work.

Other Red Cross activities include producing variety shows and making holiday favors for local hospitals and institutions. Members also sell Turkey-Day corsages and sports pencils, assist at the Blood Bank, and send friendship boxes to Paul A. Dever State School.

All these worthwhile projects are possible because so many students are ready and willing to donate their spare time to community service.

sports

In 1864 Taunton High School had no sports program at all. Even physical education was not offered. Today, besides offering gym both as a required subject and an elective, we have girls' and boys' varsity sports teams and a full intramural program.

"If at first you don't succeed, then try, try again" is illustrated by North Quincy's driving fullback Bill Curran against the Taunton defense.

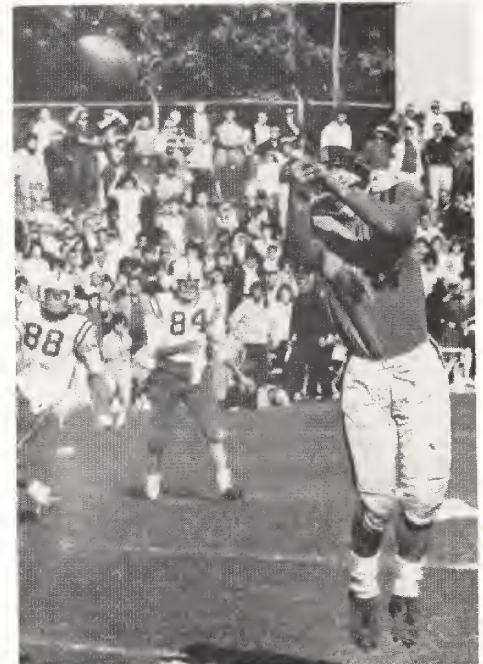

football

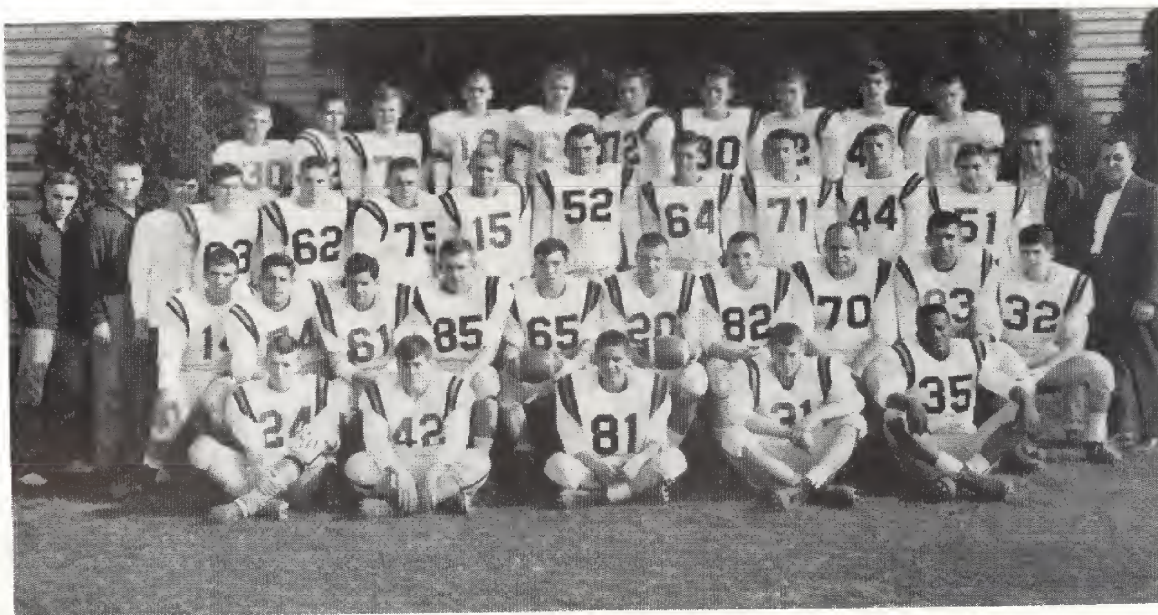

Bill stops, looks and throws.

In the eight-member Bristol County League, Taunton High was the fifth best football team in 1963. Two major problems hampered the team and Coach Lane throughout the season: lack of depth and lack of experience in the backfield. On the brighter side, Co-Captain Dave DeMoura proved to be a tough competitor at right guard and Co-Captain Bill Tripp proved to be a fine passer and a fiery play-caller at quarterback. Though they won no All-League honors, the seniors on the team, Dave Gilbert, Darrell Figueredo, Ken Wetherell, Will Andrade, John Henry Thompson, Dan Reed, John Costa, and Ed Hoops, along with junior Allan Sandberg, and sophomore Mike Del-Solio, played consistently.

Mike pinpoints his best catch.

TAUNTON 31, NEW BEDFORD VOCATIONAL 0

When a sophomore scores a touchdown the first time he carries the ball in varsity competition as halfback DelSolio of Taunton did against New Bedford Vocational, the natural question is—what does he do for an encore? DelSolio had the answer. His running improved with his confidence. After plunging two yards for his first touchdown, he scored on successively longer runs of seven, ten, and sixteen yards. Though DelSolio's debut gave the 1,200 spectators their biggest thrills, the rest of the team added solid support. On defense, Taunton bound and gagged Voke's attack around the 50-yard line. Sophomore fullback Bruce Cornell, running hard and low through the middle, gained 49 yards in eleven carries. Junior halfback Sandberg gained 77 yards in nine carries and scored the fifth touchdown.

ATTLEBORO 14, TAUNTON 6

Wearing that "greasy kids' stuff" on their hands instead of in their hair, Taunton's receivers made matters difficult for quarterback Tripp against Attleboro. In all, Tripp completed 6 of 17 passes for 125 yards, but at least six more passes should have been caught. Only once did it work. Early in the third quarter, Wetherell recovered a fumble on the Attleboro 22, and Taunton pounced on the opening like a cat on a canary. Cornell and Sandberg each banged through left tackle for a yard; then Tripp threw 20 yards to Reed for the touchdown.

NORTH QUINCY 12, TAUNTON 0

A one-man offensive show by fullback Bill Curran proved too much for the Taunton defense, as North Quincy defeated visiting Taunton. Running with the power of a tank and the

"End zone, here I come".

speed of a deer, Curran gained 120 yards in 21 carries and scored both touchdowns. "He was the difference," Taunton coach Ham Lane said. "Curran is a real clutch performer who comes up with the big play." Taunton had little chance to come up with any play. North Quincy handled the ball 65 times, Taunton only 38. When Taunton did have possession, it found time and again that running through North's line was like running against a stone wall. Normally nine points of the law, possession proved to be worth twelve points to North Quincy.

TAUNTON 8, NORTH ATTLEBORO 6

It took Taunton one play to score and the rest of the game to prove that it deserved the victory. Immediately after Sandberg recovered a North fumble on the opening kickoff, Tripp faded back from the North 34-yard line, fired a bullet pass to DelSolio, and watched his swift halfback race for a touchdown. Sixteen plays later, North struck back. Lou Cerrone passed 39 yards to Lou Parker and tied the score at 6-6. From then on, the best offense for both teams was a mighty defense. In fact, they might have battled for a

few more days if it weren't for Thompson. The Taunton end charged into the end zone, caught Cerrone with no one open to pass to, and tackled him for the game-winning safety.

BISHOP STANG 20, TAUNTON 0

The thermometer registered 85 degrees, the 900 spectators sweltered all afternoon, and the coaches sweated profusely. But the Taunton offense was ice-cold. It gained only 27 yards rushing and 89 yards passing. Bishop Stang found it much easier to beat the heat. It scored three times. Midway in the first quarter, Bishop Stang took over on its own 5-yard line. After grinding out 14 yards in four plays, Stang handed the ball to Joe Bartek and he did the rest—an electrifying 81-yard touchdown run. Fourteen plays later Peter Lopes drove three yards through left tackle for Stang's second touchdown. In the third quarter, Raymond Roberts drove four yards through right tackle for the third touchdown.

DURFEE 20, TAUNTON 0

If undefeated-untied Durfee High of Fall River looked tough before the game (it had shut

The lines hit, react, and pursue; the linebackers move fast.

out five consecutive opponents), it looked even tougher afterward. Taunton proved no tougher than its predecessors. Bob Klimka, Bob Smith, and Dan Michael scored the Durfee touchdowns. For his part, Taunton quarterback Tripp had trouble passing against the Durfee defensive secondary, as it looked like a jigsaw puzzle with its different formations.

John Henry prepares for the kill.

TAUNTON 0, NORTH FRAMINGHAM 0

In poker, it usually takes a pair to open. But neither Taunton nor North Framingham could come up with even a single. A cold, steady rain and a soft turf made scoring even more difficult. Tripp, for example, attempted eight passes, completed none, and had three intercepted. "Throwing the ball was like trying to throw a wet fish," he explained. Taunton turned in the best offensive performance of the game, a 30-yard zig-zagging run in the final period by fullback Thompson, and the best defensive performance, a game-saving tackle on the 4-yard line in the final moment by safetyman Tripp, but the rules of football are perfectly clear: You can't win unless you score points.

Imagine — it's all mine.

TAUNTON 18, FAIRHAVEN 6

It looked so easy against Fairhaven. The Taunton defense played like eleven Scrooges, limiting Fairhaven to 17 yards rushing in each half. The Taunton offense, after failing to score in its last three games, played like eleven Bob Cratchets. They shared their "goodies" in the best traditions of Christmas. Halfback DelSolio scored in the first quarter on four yard run around left end. Quarterback Tripp scored in the second quarter on a four yard slant off left tackle. Fullback Sandberg scored in the third quarter on a two yard plunge off right tackle. In the fourth quarter they rested.

The needle is threaded.

It's like running against the Rock of Gibraltar.

COYLE 22, TAUNTON 6

After "waiting 'till next year" since 1954 (the last time that Taunton defeated Coyle in football), Taunton fans finally had something to cheer about—for one half, anyway. True, Coyle led 8-6 at halftime, but few people in the overflow crowd of 6,300 doubted that Taunton dominated the first half. Coyle's Brian Friary scored two touchdowns and Gerry Puccini scored the third touchdown. In the second quarter, quarterback Tripp threw 20 yards to Reed for the Taunton score. Due to a Coyle blitz in the second half, Tripp looked something like Mary's little lamb—wherever he went, a half dozen Coyle linemen were sure to follow. "The name of the game is points," said Tripp. "We didn't score on all of our opportunities."

Now what?

basketball

After seven lean years, the Taunton High basketball team won nine, lost eight, and moved from eighth and last place in the Bristol County League in 1963 to fourth place in 1964.

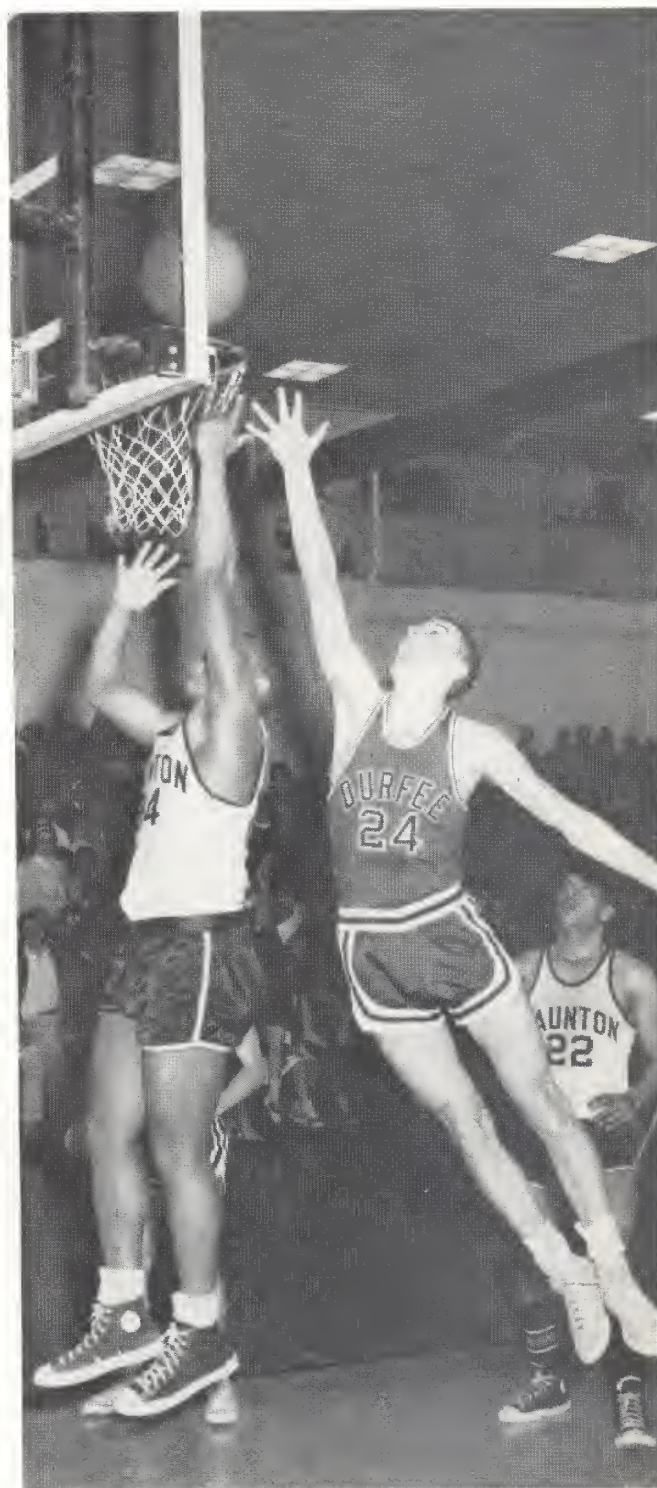

Inspired by Coach Robert Daly's winning spirit, the team started brilliantly by winning four of its first six games. Theoretically, the outlook brightened; however, along the middle of the season where most of the games are played, because of lack of height and bench strength, the bottom dropped out completely. Taunton won just five more games. Of its eight defeats, five were lost by only twenty-five points.

Two losses to Durfee, 54-48 and 59-52, one to Attleboro, 63-59, and a win over intra-city rival Coyle, 58-50, in the James L. Mulcahey Scholarship Fund game highlighted the season.

In the first Durfee game at Fall River, Taunton led by three points until Captain Bruce Texeira fouled out late in the third quarter. This ended Taunton's hope of an upset. By using a full court press in the third quarter after losing 28-17 at halftime, Durfee rallied and defeated Taunton in the second game. Trailing by fifteen points against Attleboro, Taunton tied the score at 59-59 with 1:32 left, but a hustling Attleboro team scored two quick baskets. With Texeira scoring 28 points and playing his best game of the year, Taunton defeated Coyle for the first time since 1960.

In the Bay State Tournament, Lexington defeated Taunton, 57-55, in a first round game and then continued on to win the Class A championship.

The season was a success. Texeira scored 397 points and won All-League honors. Sophomore John Medas with his sure fifteen foot jump shot played steady basketball. Freshman Ben Enos rebounded tremendously and made the difference in quite a few games.

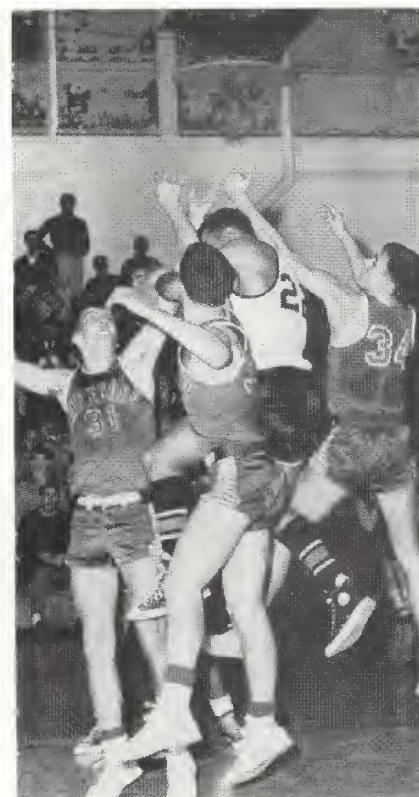

Bruce gracefully, swiftly, and perfectly picks off the rebound as a seagull plucks a fish out of water.

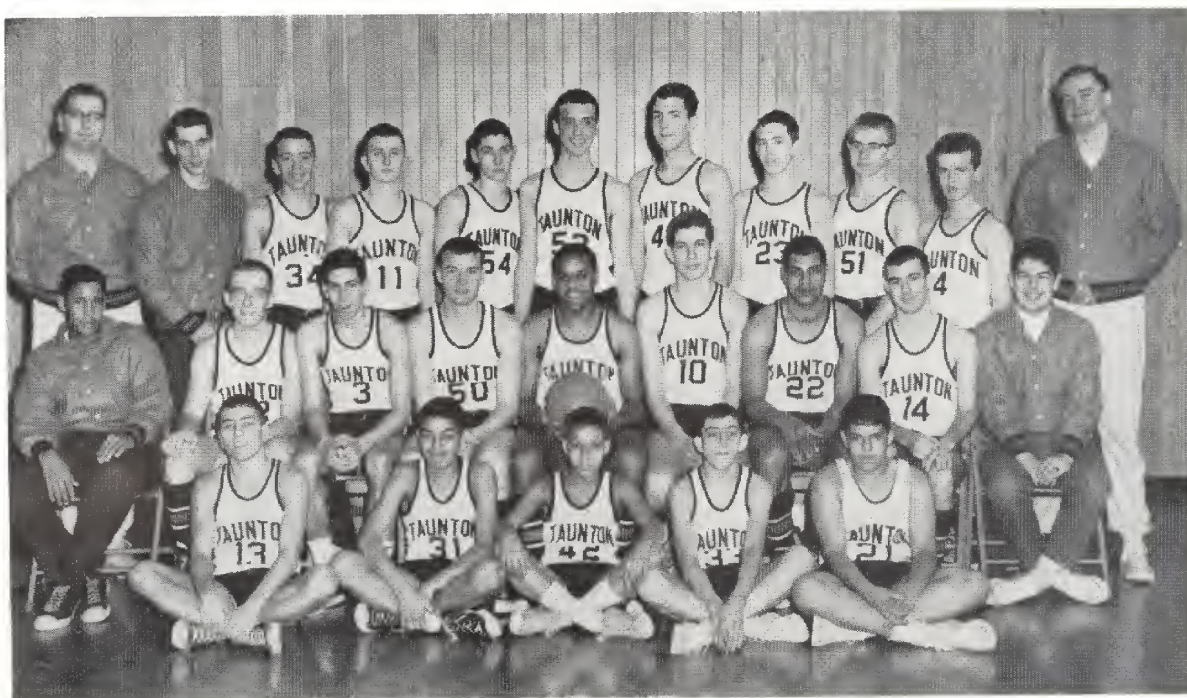

Bruce scores the winning foul shot in overtime against Fairhaven.

Bruce fakes like a magician and drives like a Volkswagen doing a figure eight.

The way is blocked and closed but Benny continues.

baseball

They say that baseball is a "game of inches". Well, those inches will decide quite a few games this year as only five lettermen return from 1963's superb team which won eleven of sixteen games. Coach Gus DiRubio and Co-captains John Kenney and Bruce Texeira know that the team will have to hustle, play a strong defense, and, most of all, be able to hit in the clutch, to have a winning season.

For the third consecutive year, seniors Ed Hoops and Texeira will compose the pitching staff. Seniors who will add solid support are Bill Tripp, Anthony Lopes, Don Erigoreas, and Gerry Klein.

intramurals

Arms and legs to George and Rich are as valuable as fins are to a fish.

You can tell that Bill is a Vitalis man with that perfect form.

The term intramural describes those sports conducted for students within the confines of a particular school, as contrasted with the interscholastic athletic program which includes athletic competition between two or more schools. The primary purpose of intramural sports is to give real meaning to the slogan "athletics for all."

Under the direction of Augustine DiRubio, the Taunton High intramural program once again provided the boys not playing varsity sports to indulge in yearly competition. Sports of all kind were played by students of all abilities. The events operated in order that maximum enjoyment, social value, and sportsmanship prevailed. A total of 489 students participated.

Organization reached a peak in the third year of the program, as the executive board viewed game and instructional films of the Boston Celtics, the Patriots, the Bruins, the Red Sox, and the importance of physical fitness was emphasized.

So near, yet so far.

The girls' varsity basketball team, coached by Miss Ann Farley, enjoyed a very successful season and compiled a record of ten wins and five losses. Led by the consistent high scoring of seniors Mary Hyland, 249 points, and Captain Betty Meunier, 177 points, the team finished fourth in the Bristol County Girls' League. Sue Flood scored 85 points. Guards Marilyn Lima, Lily Medas, Liz Rhodes, and Marcia Taylor contributed much to the teams' success by playing excellently on defense.

With seven starting players returning, Miss Farley is highly optimistic about the 1964-65 season.

The girls' junior varsity basketball team was composed of freshmen and sophomores. Led by high scoring Captain Sharon Lima, who scored 77 points, the team engaged in fourteen Bristol County League games and finished with a record of seven wins and seven losses.

GIRLS' VOLLEYBALL

The volleyball team, composed of girls from all four classes, will play ten Bristol County League games. Coach Miss Ann Farley and Captain Lily Medas are hopeful of a winning season as 12 players return.

GIRLS' SOFTBALL

With 1963's entire softball team returning, the girls anxiously await the 1964 season in the Bristol County Inter-Scholastic Girls League. Seniors Betty Meunier, Mary Hyland, and Marilyn Lima, who have played together since their freshman year, form a strong nucleus.

bruce texeira

For the past four years, Taunton High basketball opponents have been envious of our team. But they probably won't be envious anymore as our team faces the difficult task of replacing senior Bruce Texeira, the best basketball player ever to come from the city of Taunton.

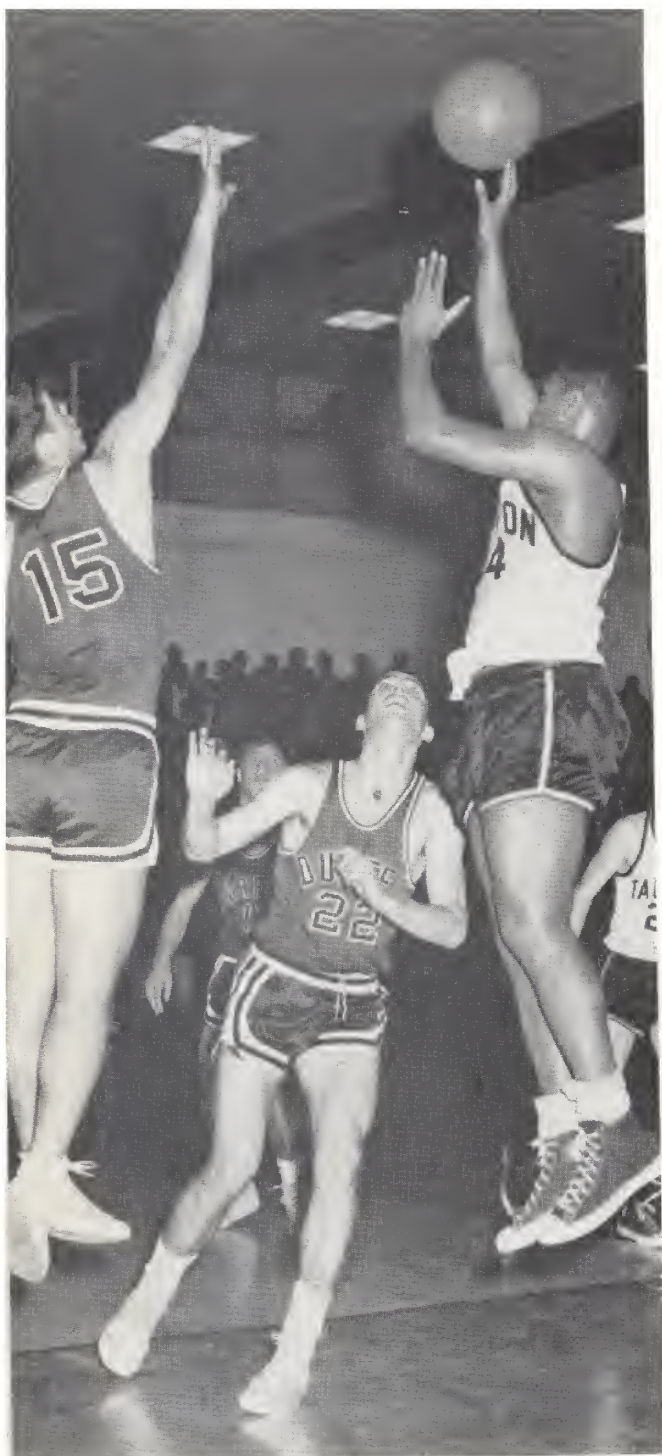

For the past four years, Bruce was the heart of the team, the master gear around which the team revolved. Here are only a few descriptions of "the whole young man" Bruce Texeira.

A rival coach says: "Bruce is one of the best basketball players ever to play in the Bristol County League, and in 1964, one of the best in Massachusetts."

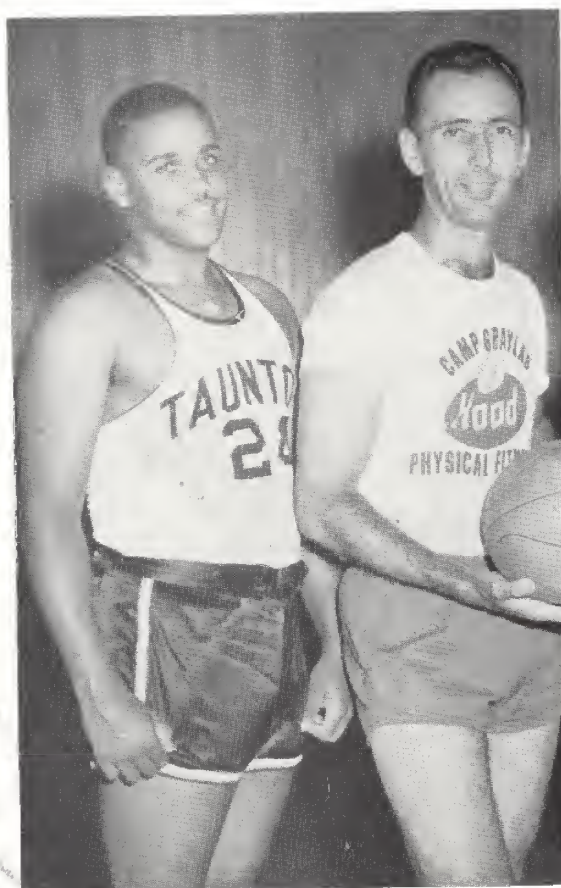

A teacher says: "Bruce has the rare quality of knowing how to be a basketball star and still be himself."

A fan says: "Bruce is beautiful to observe. The things he does are amazing because he makes them look so easy."

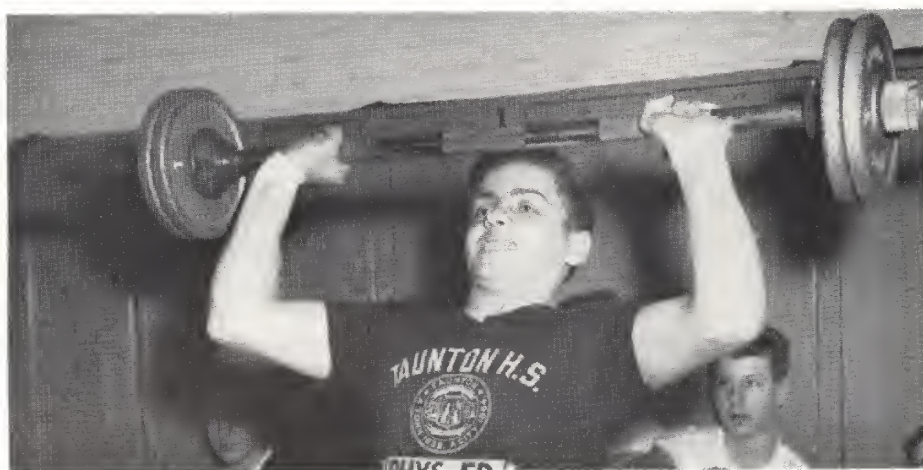

Our high school days have ended. One senior we should all remember, one who brought honors and recognition to himself and Taunton High School, is Bruce Texeira.

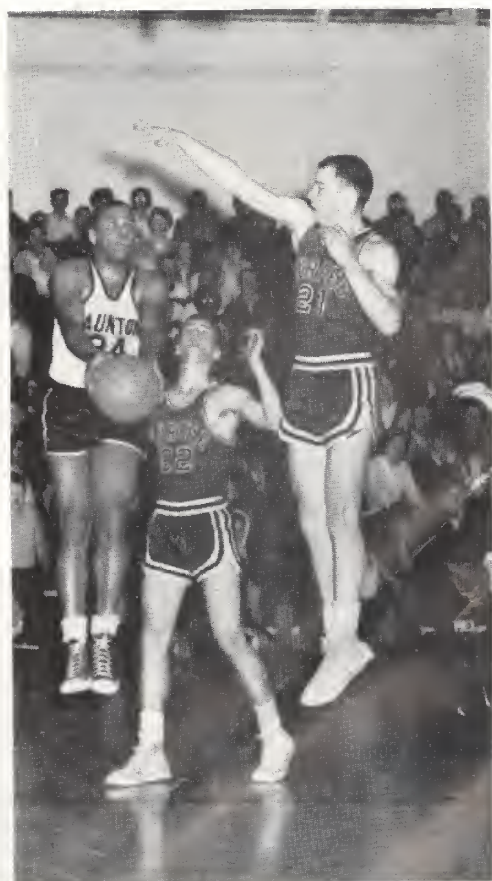

The shot seen 'round the league.

In 1864 Taunton became a city with a population of fifteen thousand. Economic growth was also shown in that year by the establishment of the Machinist National Bank and the Bristol County National Bank. Now, with a population of about forty-one thousand, we have seven banks.

the journal staff thanks . . .

Miss Marguerite C. Smith, for her patience, skillful guidance, and encouragement.

Mr. Baacke, Mr. Irons, and Mr. Chadinha, our printers, for teaching us how to put out a yearbook, for their constant attention and advice, and for their extra effort in helping us solve our difficulties.

The Old Colony Historical Society, for the use of pictures and information from Historical Hall.

Bickford Engraving and Electrotpe Company, for their excellent and efficient work.

The Taunton Public Library, for allowing us to use pictures from the library.

Mr. Mullen, for his kindness and cooperation.
